"The AMERICAN EXPORTER is the only medium we really care to use to gain foreign trade. We rate your publication AA-1." *TYPEWRITER CLEARING HOUSE CO., NEW YORK, N. Y.*

"The AMERICAN EXPORTER is the one paper needed to build up an export business for the American manufacturer. Its services are far beyond all others combined."
WICK NARROW FABRIC CO., PHILADELPHIA, PA.

The aim of the AMERICAN EXPORTER is and has always been the upbuilding of a world-wide demand for American goods. Issued in two editions each month, one in English, the other in Spanish (EXPORTADOR AMERICANO). The two together cover all countries that import American goods, reaching those who influence practically the entire buying of manufactured goods from this country.

650 manufacturers use this publication regularly to enlarge their export trade. Each issue averages 140 pages of advertising.

It publishes its exact circulation every month in its editorial pages.

An increasingly important feature of the AMERICAN EXPORTER is the *Foreign Trade Service* maintained on behalf of its advertisers. This service includes the sending of our representatives into foreign markets to study conditions in the interest of our clients, the furnishing of selected names of possible customers or agents in any country, commercial ratings on prospective foreign customers, translation of foreign correspondence from and into any and all languages resulting from or pertaining to the advertiser's announcements, etc.

Representative space regularly in the AMERICAN EXPORTER gives you all the export advertising you need, for this publication covers every foreign market for your goods. This publicity coupled with our Foreign Trade service provides you with the necessary facilities for conducting intelligently an export trade.

AMERICAN EXPORTER, 135 WILLIAM STREET, NEW YORK CITY

"The service of the AMERICAN EXPORTER is quite as substantial an investment as government bonds."
L. B. ALLEN CO., INC., CHICAGO, ILL.

"We thank you for the very efficient manner in which you have helped us build up an export business. We heartily recommend the AMERICAN EXPORTER to any manufacturer seeking export trade."
BAY STATE IRON WORKS, ERIE, PA.

"We have been advertising in the AMERICAN EXPORTER for thirty years. We are not ready to quit yet."
J. A. FAY & EGAN CO., CINCINNATI, OHIO

"Next to a personal representative the AMERICAN EXPORTER is the most efficient means of introducing lines abroad. It secures immediate returns."
GRAY MOTOR CO., DETROIT, MICH.

CUTLER MAIL CHUTES

are a necessity in any modern building, of the office, apartment or hotel class, because in such buildings the convenient and certain dispatch of mail is a matter of first importance, and CUTLER MAIL CHUTES afford the only means securing just this result.

Mere cheapness should be the last consideration in providing for handling the important mail of such buildings, particularly when it is remembered that the cost of even our very best work is but a trifling part in the total expense of the building—absolutely insignificant when the vital importance of its service is remembered.

Our business has grown with and has been an essential feature of, the development of the tall building. From the Produce Exchange, seven stories, in 1885 to the Metropolitan Tower, forty-one stories, in 1908, all the important buildings, making steps in this advance, are built around CUTLER MAIL CHUTES.

Without the elevator this growth would have been impossible, without the mail chute thousands of business men would have been too far from the Post Office. All essentials of modern mail chutes are fully protected by the Cutler system of recent mail chute patents.

Infringers are being prosecuted.

PARKER CORNER-BEAD

FOR THE PROTECTION OF PLASTERED CORNERS

A corner of steel, costing less than the ordinary plastered corner.

WHY?

BECAUSE it builds the corner for the plasterer as straight as a plumb-line, and puts straight edges and plumb-lines out of business.

THE "PARKER" CORNER lasts the life of a building, and saves in repairs many times its cost. It takes the place of wood-trim when used around windows, and makes a fire-proof, sanitary, artistic corner, at trifling expense. It is the only corner protector that holds the plaster in a grip that won't let go.

THE "PARKER" is hot-galvanized, warranted not to rust; is easily erected and costs less than others that do not protect.

FREIGHT CHARGES trifling, as a thousand feet, with attachments, weigh two hundred pounds only.

STOCK LENGTHS—six, seven, eight, nine and ten feet, — fifty strips in a bundle,—securely tied to stand transportation.

IT IS the bead that has and holds the market; no other bead has a chance when compared with the "PARKER."

WHY?

BECAUSE other beads on the market are punched beads.

STRIKE any corner-bead that has side punchings for the alleged keying of plaster a moderate blow on its face and you break the bonds as far as vibration extends, leaving loose, crumbling plaster along the blade of plate which will grind from vibration of building, and sooner or later work itself to the surface. The larger the punchings the greater the danger and damage to the plastered corner. The "PARKER" is the only bead that will hold plaster on its blade without punching. The plaster on this bead is keyed in between the flange and the extending lip with a grip that will stand any blow the face of bead would be likely to receive.

WHEN SELECTING A BEAD REMEMBER THIS
